1 Table of Contents

2   Technical Standards

	Supported	Preferred	Unsupported
Desktop / Laptop Tablet Operating Systems	Windows 10 IOS Android	_	
Browsers	Chrome IE Firefox Brave	_	
Mobile Phones	Apple 6+, 7, 8, 9, X Samsung J8	For SmartTrack the preferred platform is Apple 6+, 7, 8, 9, X	
Beacons	Bluetooth		

Note: Corporate users should have device SOE management and configuration control.

This is required to ensure that any operating system updates are deferred until they can be fully tested against the BA365 application to ensure functionality is not compromised.

BA365 will update and publish this technical advisory on a regular basis to customers confirming when a new mobile device operating system has been certified.

Any enquires related to technical standards should be directed to support@ba365.com.au
